

UMS

...the integrated training centre for Mechanical Engineers

Launches

ANSYS®

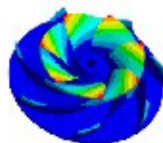

...the most robust and realistic analysis & simulation software

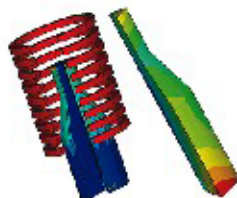

The ANSYS family of products enables designers to analyse how their designs will react to the physical demands of the real world allowing them to make crucial changes prior to production. The ANSYS product line include time-tested, industry leading applications for structural, thermal, mechanical, computational fluid dynamics and electromagnetic analyses, as well as solutions for transient impact analysis.

Modules covered :

- ANSYS user interface
- Element, Nodes & Mesh generation
- Structural analysis

- Static Analysis
- Dynamic Analysis
- Thermal Analysis
- Introduction to CFD
- Simulation
- Interpretation of results

**Unique features :**

- Authorized training using educational licenses.
- Industry standard and practical oriented training with live projects.
- Allocation of Project work for the final year students.
- Convenient batch timings - Full time / Parttime / Weekends
- Placement assistance by referring to various user industries across in India

Duration	Course Fee
Full time - 4 weeks	
Part time - 8 weeks	

Other short term courses offered****CAD / CAM / CAE training**

AutoCAD, Inventor, Pro / ENGINEER, CATIA
Solidworks, Unigraphics, Delcam & Cimatron

**** Hands-on training in**

CNC EDM Wire-cutting & CNC EDM Die-sinking
CNC Lathe & CNC Milling Machinery

Attractive
concession for
students & group
registration
